This map was developed by the West Virginia Department of Transportation (WVDOT) Transportation Planning Division in cooperation with the U.S. Department of Transportation Federal Highway Administration. All data and images used to produce this map were compiled and maintained by WVDOT. The map should not be used for navigational purposes and is not intended for legal use. This map is not a map of West Virginia but is rather an overview of the Calhoun County transportation system. The map is not intended to depict all details such as minor roads, streams, etc. A topographic map would be necessary for those details.

Scale of Inset

Legend
