A map is for planning and simple location of features to within several feet or even hundreds of feet. It only depicts those features found in the field. The map is not intended to contain all or even most of the features found on the face of the earth in any given location. This map does not depict any topographic features.

The map is a product of West Virginia Department of Transportation Planning Division and is under the supervision of the West Virginia Highway Administration. It is intended for the use of the general public.

The map contains information such as roads, cities, towns, and parks. It is useful for planning purposes and locating specific areas or features.

For further details or questions, please contact the West Virginia Department of Transportation Planning Division.
